

Budgeting made simple.

Budgeting alleviates stress, clarifies goals, and guides financial decisions. Use this worksheet to gauge monthly expenses, income, commitments, and leftover funds for your objectives, fostering financial stability and peace of mind.

Step 1: Calculate your income

Let's figure out how much you make each month, after taxes are removed.

Weekly Pay Schedule: Multiply your weekly income by 52 and then divide by 12

Bi-weekly Pay Schedule: Multiply your bi-weekly income by 26 and then divide by 12

Varying Pay Schedule: If your pay is not on a consistent schedule, take last year's total income and divide by 12.
